

How to Use TerraClues as an Assessment Tool for Content Contained in a Google Map

In Google Maps

- Create a Google Map on a specific topic - "Women Spies of the Civil War"
- Distribute names of spies
- Research
- Create place marks in the Google map and input specific information on your spy
- Save the Google map and copy the URL address

In TerraClues.com

- Create an account using a gmail account for ease of access
- Log in
- Go to "My Hunts"
- Click on "Create a Hunt"
- Write your first clue
- Give a location and search map
- Give a title to the answer like "Rebel Queen"
- Give the answer
- Upload an image, if available
- Scroll down and paste the URL of your Google Map in the link section. This will allow readers to access your Google map for research.
- Save your clue
- Create more clues
- Save
- Activate Your TerraClue
- Email
